MEMORANDUM FOR: PAO Staff Personnel

FROM:

[REDACTED]

Acting Director/Program Assessment Office

SUBJECT: PAO Study Program for FY 79

1. As I try to anticipate what may or may not be expected of us in the remainder of this fiscal year, I would like to outline for you the PAO study program which I plan to recommend that [REDACTED] approve. 25X1

2. In the near term, I assume that we will complete the studies identified in Attachment 1 by the indicated suspense dates. In general, these studies should be programmatic and decision-oriented. Wherever feasible, alternatives should be developed and evaluated for [REDACTED] 25X1

3. Attachment 2 identifies those studies which I plan to nominate as candidate studies for PAO to complete this fiscal year. Since the list represents only my first impressions of what should be undertaken, I am open to any suggestions you might have with respect to additions and/or deletions from the list. Comments should be provided by 12 January 1979.

4. After I receive your comments on the proposed list, I will ask each study leader to develop a proposal which outlines the objectives of the study, the proposed methodology, and milestones for the effort. The study proposal will also identify the relationship between the study and decisions which have to be made with respect to the NFIP (see Attachment 3).

[REDACTED]
